

FUNCTIONAL AND NON-FUNCTIONAL TESTING

Test Documents

U-Sports: University Sports Management Platform

TEST ENVIRONMENT

Every result and screenshot in this document was produced in the environment below.

Web application under test	U-Sports web client, production build (Vite 6.4.2 / React 19 / TypeScript), served locally at http://localhost:4173
API under test	U-Sports Express API (Node.js 22.19.0 + TypeScript), running at http://localhost:3001/api against the live Supabase project
Mobile application under test	U-Sports Android client, Flutter 3.41.7 (stable), debug build installed on the emulator
Database and authentication	Supabase (PostgreSQL 15, Auth, Storage, Realtime) — live project
Deployed web application	https://usports-one.vercel.app (Vercel)
Deployed API	https://u-sports.onrender.com/api (Render)
Browser	Microsoft Edge 153.0.4234.32 (Chromium), automated with Playwright 1.49.1
Android device	Android emulator, sdk_gphone64_x86_64, Android 15 (API level 35), 1080 x 1920
Measurement tool	Google Lighthouse 12.2.1, headless, three runs per module

Scope of this test cycle

This cycle covers navigation, display, data integrity, authentication, authorisation and consent across both applications, together with the non-functional measurements below. Each test case was executed against live data and the Actual Results column holds the screenshot captured at the moment of execution. Destructive write operations — creating, editing and deleting events, teams, seasons, accounts and announcements — were deliberately not executed against the production database in this cycle; the controls for them are recorded in the functionality tables and are shown present and reachable in the accompanying screenshots.

FUNCTIONALITY TESTING

Module No.	Module Name	Function Name	Description
GENERAL MODULES (WEB AND MOBILE APPLICATION)			
1	Login / Authentication	Authenticate	Verifies the email and password against Supabase Auth and routes the user to the dashboard that matches their role (Super Admin, Organizer, Coach or Athlete).
		Forgot Password	Sends a password-reset link to a registered school email address and reports the outcome without revealing whether the account exists.
		Accept Invite / Set First Password	Lets an invited staff member or athlete set their own password from the link sent to their school email.
		Guest Access	Allows anyone to browse standings, events and rosters without signing in.
2	Data Privacy Notice	Review Notice	Presents what the platform collects and why, before any personal data is shown.
		Accept Notice	Records the consent timestamp and unblocks the rest of the application; the notice cannot be dismissed without a decision.
3	Profile	View Profile	Displays the signed-in user's own details — name, school ID, department, year level, position and jersey number.
		Edit Profile	Updates the user's own personal details and profile photo.
		Change Password	Updates the account password, subject to the once-every-7-days limit and the 8-character / letter-and-number rule.
4	Notifications	View Notifications	Lists announcements and match alerts addressed to the user, with an unread badge and All / Unread / Recent filters.
		Mark Read and Clear	Marks notifications as read individually or all at once, and removes them from the list.
5	Sign Out	Logout Function	Ends the session on the device and returns the user to the public hub, leaving no session open.
WEB APPLICATION SYSTEM			
1	Public Hub (Landing Page)	Introduction and Navigation	Presents the institution banner, live games, open events, sports and season totals, with navigation to Hub, Standings, Events and Sign In.
		Live Game Cards	Shows each match currently being played with running scores, refreshed in real time.
2	Guest — Standings	View Player Statistics	Season leaderboard per sport, with the statistics that apply to that sport (PPG/RPG/APG for basketball, attacks/aces for volleyball, points/winners for table tennis).
		View Team Standings	Win-loss record and win percentage per team for the selected sport and season.
		Filter by Sport and Season	Restricts both tables to a chosen sport and academic year.
3	Guest — Events	Browse Events	Lists upcoming, ongoing and past events with a search box and sport filter.
		View Event Detail	Shows the event bracket and its match list with status and schedule.
4	Guest — Team and Athlete Profiles	View Team Detail	Shows a team's season record and full roster with jersey numbers and positions.
		View Athlete Profile	Shows an athlete's department, year level, position and season statistics.
5	Jumbotron	Display Live Scoreboard	Full-screen venue scoreboard for a single match, driven by the live scoring session.

U NU DASMARIÑAS
COMPUTING AND INFORMATION TECHNOLOGY
CAPSTONE PROJECT 2

Module No.	Module Name	Function Name	Description
6	Super Admin and Organizer — Dashboard	Data Visualization Cards	Summarises athletes, teams, events and games played as cards, with quick actions into scoring and management.
7	Organizer — Event Management	View Events	Lists every event the organizer may manage, filtered by Active, Completed, Cancelled or All.
		Search and Filter Events	Narrows the list by name, category, sport or status and reports the filtered count.
		Create Event	Registers a new event under a season, sport and category.
		Edit Event Details	Updates the name, schedule, format and category of an existing event.
		Generate Bracket	Builds the single- or double-elimination bracket from the registered participants.
		Mark Finished / Cancel / Delete Event	Closes, cancels or removes an event and its dependent records.
		Export Bracket	Saves the rendered bracket as an image for posting.
8	Organizer — Live Scoring	Record Team Score	Adds or subtracts points, sets or games for either side while the match is live.
		Record Player Statistics	Attributes each scoring action to a player on the active lineup.
		Scoring Lock / Stat Tracker Mode	Gives one organizer the scoring lock and puts any other organizer in stat-tracker mode, so two people cannot award points at once.
		Validate Set / Advance Period	Freezes the current set or quarter so it can no longer be edited, then advances play.
9	Organizer — Match Review and Score Sheet	View Match Review	Shows the finalised result, per-player box score and the organizer who recorded it.
		Edit Stats	Corrects recorded statistics after a match is finalised.
		View and Export Score Sheet	Produces the printable official score sheet for the match.
10	Organizer and Coach — Team Management	View Teams	Lists teams for the sports and season the user is assigned to.
		Create Team	Registers a new team under a sport, department and season.
		Import Teams	Creates several teams at once from a CSV or Excel file.
		Manage Roster	Adds or removes athletes and sets jersey numbers and positions.
		Set Starting Lineup	Marks which roster members start, in slot order.
11	Organizer and Coach — Athlete Accounts	Add Athlete	Registers one athlete with a school ID, real school email, department, year level and sport.
		Import Roster	Registers many athletes from a CSV or Excel file, rejecting and naming any row with an invalid year level or email.
		View Athlete Accounts	Lists registered athletes with their status, filterable by Activated or Deactivated.
		Edit Athlete Account	Updates an athlete's details, position and jersey number.
		Deactivate / Delete Athlete	Suspends or permanently removes an athlete account.
		Reset Athlete Password	Issues a fresh first password for an athlete who cannot sign in.
		Export CSV	Downloads the athlete list for offline records.
12	Organizer — Season Management	View Seasons	Lists academic-year seasons with their status.
		Create Season	Opens a new academic-year season together with its starter teams and events per sport.
		Activate / Archive Season	Marks which season is current, or closes a finished one.
13	Organizer — Analytics	View Leaderboard and Insights	Season-wide statistical rankings and derived insights per sport.
		View Event Results	Final placements and results per event.
		Export CSV	Downloads the analytics tables for reporting.

U NU DASMARIÑAS
COMPUTING AND INFORMATION TECHNOLOGY
CAPSTONE PROJECT 2

Module No.	Module Name	Function Name	Description
14	Organizer and Super Admin — Announcements	Create Announcement	Composes an announcement with a title, body and display type.
		Post Announcement	Publishes it to the hub ticker and to the notification lists of the intended audience.
		View Announcements	Lists posted announcements for review.
15	Super Admin — Staff Accounts	Add Staff	Creates an Organizer or Coach account against a school email address.
		Add Super Admin	Creates another administrator account.
		Assign Department and Sports	Scopes what a staff member may manage, by department, sport and season.
		Edit / Deactivate / Reset Password	Maintains existing staff accounts.
16	Super Admin — School Profile	Edit Institution Profile	Sets the institution name, tagline, address, logo and brand colours used across both apps.
17	Super Admin — Audit Logs	View Audit Trail	Lists administrator and organizer actions in order, paginated, for accountability.
18	Help Center	View Help Articles	In-app guidance for each role on how to run a season.
MOBILE APPLICATION SYSTEM			
1	Home	Access Services	Shows the institution banner, games being played now, open-event totals and the announcement ticker, and routes to every other section.
2	Standings and Leaderboards	View Player Statistics	Season leaderboard per sport with sport-appropriate statistics.
		View Team Standings	Win-loss record and win percentage per team.
		Filter by Sport and Season	Restricts the tables to a chosen sport and academic year.
3	Events	Browse Events	Upcoming, live and past events with search and sport filter.
		View Bracket	Renders the event bracket with live matches highlighted.
		View Matches	Lists the event's matches with status and schedule.
4	Live Match View	View Live Score and Roster	Opens a live match as a sheet showing the running score and both rosters.
5	Team Detail	View Record and Roster	Team season record with the full roster, starters marked.
6	Coach — My Teams	View Assigned Teams	Lists the teams the signed-in coach is assigned to, with roster and starter counts.
		View Schedule and Results	Shows what is being played now, what is next, and recent results for those teams.
		Courtside Roster Edit	Lets a coach adjust jersey number, position and starting lineup from the team page.
7	Athlete — Dashboard	View Own Profile and Stats	School ID, department, year level, position, jersey number and the season snapshot.
		View Own Schedule	Upcoming and live matches for the athlete's team.
8	Notifications	View Notifications	Announcements and match alerts with an unread badge and All / Unread / Recent filters.
		Read All and Clear	Marks everything read or clears the list.
9	Settings	Toggle Dark Mode	Switches the app between light and dark appearance.
		Change Password	Updates the account password from the device.
		View Privacy Notice	Re-opens the data privacy notice at any time.
		Sign Out	Ends the session on the device.

Summary of Results

65 test cases were executed — 44 on the web application and 21 on the Android application. 64 passed and 1 failed.

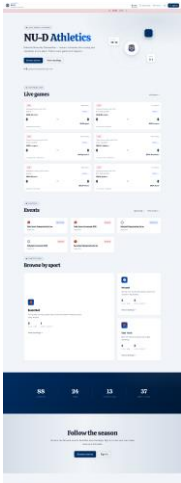

Module No.	Module Name	Test Code	Function Name	Remark / Status
WEB APPLICATION SYSTEM				
1	Public Hub and Guest Browsing	001	The public hub loads successfully with the correct elements	PASSED
		002	A guest can read season standings and leaderboards	PASSED
		003	A guest can browse the events list	PASSED
		004	A guest can open an event and read its bracket	PASSED
		005	A guest can open a team page	PASSED

Test Script Document Identifier – TS01

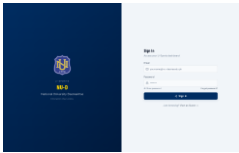

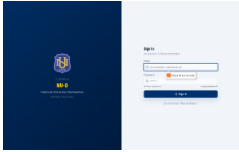

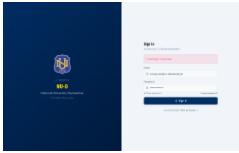

Test Specification - 01	
Designed by: Dacuba, Yuri Gabriel C. Parco, Mark Christian P. Rodriguez, Robin Kris P.	Modules: U-Sports Web Application System
Objectives: Test basic functionality	Browser Platform: Microsoft Edge (Version 153.0.4234.32)

Test Case #	Description	Test Steps	Test Data	Expected Results	Actual Results	Pass/ Fail	Performed by / Date
1-1	Verify that the public hub loads successfully with the correct elements.	1. Open the web application at its root address. 2. Confirm the navigation bar carries Hub, Standings, Events and Sign In. 3. Confirm the live-game and season-total sections render.	N/A	- The hub loads with no broken links or console errors. - Live game cards show the matches currently being played. - Season totals report athletes, teams, competitions and games played.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026

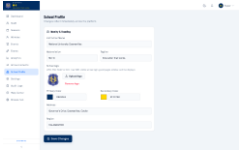

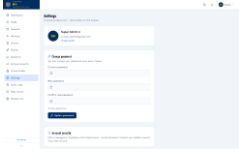

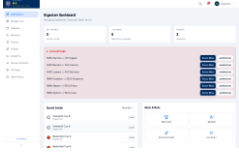

U NU DASMARIÑAS
COMPUTING AND INFORMATION TECHNOLOGY
CAPSTONE PROJECT 2

Test Case #	Description	Test Steps	Test Data	Expected Results	Actual Results	Pass/ Fail	Performed by / Date
1-2	Verify that a guest can read season standings and leaderboards.	1. From the hub, open Standings. 2. Select a sport and an academic year. 3. Read the player-statistics table.	Basketball, AY 2026-2027	- The leaderboard lists ranked athletes with games played and the statistics that apply to the chosen sport. - Changing the sport or season re-filters the table.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
1-3	Verify that a guest can browse the events list.	1. From the hub, open Events. 2. Review the upcoming, ongoing and past groupings.	N/A	- Every event is listed with its sport, format, season and status badge.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
1-4	Verify that a guest can open an event and read its bracket.	1. From Events, open an ongoing event. 2. Review the bracket and the match list.	Basketball Championship Series	- The bracket renders each round with live matches highlighted. - Match entries show participants, status and schedule.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
1-5	Verify that a guest can open a team page.	1. From Standings or an event, open a team. 2. Review the record and roster.	Volleyball Team A	- The team page shows the season record and the full roster.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
1-6	Verify that a guest can open an athlete profile.	1. From a roster or leaderboard, open an athlete. 2. Review the profile and season statistics.	Registered athlete	- The profile shows department, year level, position and season statistics.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026

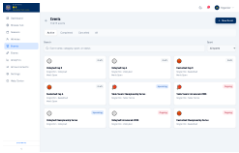

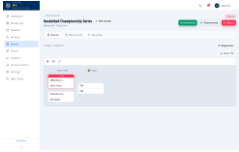

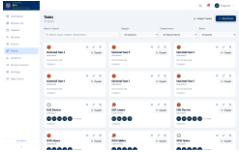

U NU DASMARIÑAS
COMPUTING AND INFORMATION TECHNOLOGY
CAPSTONE PROJECT 2

Test Case #	Description	Test Steps	Test Data	Expected Results	Actual Results	Pass/ Fail	Performed by / Date
2-1	Verify that the sign-in page loads successfully.	1. Open /auth/login. 2. Confirm the Email and Password fields and the Sign In button are present.	N/A	- The sign-in page loads with both fields, a password visibility toggle, a Forgot password link and a guest link.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
2-2	Verify required-field validation on the sign-in page.	1. Open the sign-in page. 2. Leave the email and password fields empty. 3. Click Sign In.	Empty email and password	- The system blocks the attempt and reports that the fields are required. - No request is sent and the user stays on the sign-in page.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
2-3	Verify sign-in with invalid credentials.	1. Open the sign-in page. 2. Enter an unregistered email and an incorrect password. 3. Click Sign In.	wrong.user@n u- dasma.edu.ph / incorrect password	- The system refuses the sign-in and displays "Invalid login credentials". - The user remains on the sign-in page and no session is created.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
2-4	Verify that the forgot-password page loads.	1. From the sign-in page, click Forgot password.	N/A	- The reset request page loads with an email field and a send action.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
2-5	Verify the forgot-password request.	1. Open the forgot-password page. 2. Enter a registered school email address. 3. Submit the request.	Registered school email address	- The system confirms that a reset link has been sent. - The wording does not reveal whether the account exists, so the form cannot be used to enumerate accounts.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
3-1	Verify that the data privacy notice blocks the application until it is answered.	1. Sign in with an account that has not yet accepted the notice. 2. Attempt to reach a dashboard.	Account with no recorded consent	- The notice is shown full screen before any personal data. - It cannot be dismissed by clicking away; the user must accept or sign out. - Accepting records the consent and opens the dashboard.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
3-2	Verify that the privacy notice is readable outside the sign-in flow.	1. Open /privacy-notice as a guest.	N/A	- The full notice is readable without signing in.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026

CAPSTONE PROJECT 2

Test Case #	Description	Test Steps	Test Data	Expected Results	Actual Results	Pass/ Fail	Performed by / Date
4-1	Verify that the Super Admin dashboard loads with its summary cards.	1. Sign in as a Super Admin. 2. Confirm the dashboard cards and side navigation render.	Super Admin account	- The dashboard shows the key counts and the full administrator navigation.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
4-2	Verify Super Admin staff account management.	1. Open Staff. 2. Review the staff list and the available actions.	Existing staff accounts	- Organizers, Coaches and Super Admins are listed with Add staff, Add Super Admin, Edit, Deactivate and Reset password actions.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
4-3	Verify Super Admin season management.	1. Open Seasons. 2. Review the seasons and their controls.	Existing seasons	- Each academic-year season is listed with its status and New Season, Edit, Activate and Archive actions.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
4-4	Verify the school profile page.	1. Open School Profile. 2. Review the institution fields.	Current institution profile	- Institution name, tagline, address, logo and brand colours are shown and editable.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
4-5	Verify Super Admin account preferences.	1. Open Settings. 2. Review the profile, password and privacy controls.	Super Admin account	- The page offers photo change, password update, Help Center, privacy notice and sign out.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
4-6	Verify the audit log.	1. Open Audit Logs. 2. Review the entries and paging controls.	Recorded administrator actions	- Administrator and organizer actions are listed in order with working previous/next paging.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-1	Verify that the Organizer dashboard loads.	1. Sign in as an Organizer. 2. Review the dashboard cards and quick actions.	Organizer account (all sports)	- The dashboard shows the season summary with Score Now, Jumbotron, New Event and management shortcuts.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026

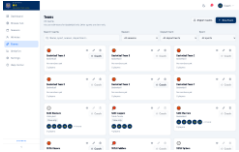

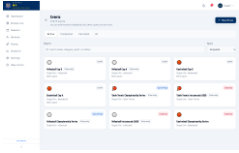

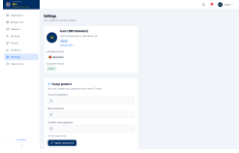

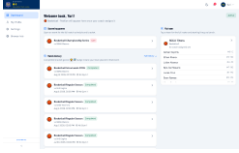

U NU DASMARIÑAS
COMPUTING AND INFORMATION TECHNOLOGY
CAPSTONE PROJECT 2

Test Case #	Description	Test Steps	Test Data	Expected Results	Actual Results	Pass/ Fail	Performed by / Date
5-2	Verify the event management list and its filters.	1. Open Events. 2. Switch between the Active, Completed, Cancelled and All filters.	Existing events	- Events are listed with sport, season and status. - Each filter narrows the list and the count follows the filter.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-3	Verify the organizer event detail page.	1. Open an ongoing event from the list. 2. Review the bracket, matches and team tabs.	Basketball Championship Series	- The event detail shows Bracket, Matches and Teams tabs with Edit details, Mark finished, Cancel event, Delete, Regenerate and Export PNG actions.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-4	Verify athlete account management.	1. Open Athletes. 2. Review the list and the per-row actions.	Registered athletes	- Athletes are listed with department, year level and status. - Add athlete, Import roster, Export CSV, Edit, Deactivate, Reset password and Delete are available.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-5	Verify team management.	1. Open Teams. 2. Review the teams, rosters and lineup controls.	Existing teams	- Teams are listed by sport and department with Import teams, New Team, roster and starting-lineup controls.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-6	Verify season management from the organizer shell.	1. Open Seasons. 2. Review the listed seasons.	Existing seasons	- Seasons are listed with their status and date range.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-7	Verify the analytics module.	1. Open Analytics. 2. Switch between Leaderboard, Insights, Event results, Teams and Score Sheets.	Completed season data	- Each tab renders its statistics for the selected sport and season, with Export CSV available.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026
5-8	Verify the announcements module.	1. Open Announcements. 2. Review the posted announcements and the New Announcement action.	Posted announcements	- Posted announcements are listed and a new one can be composed.		Pass	Dacuba, Parco, Rodriguez 24 Sep 2026

SUPPORTABILITY / COMPATIBILITY

Mobile Operating Systems	Version	Compatibility
Android	15 (API 35)	Successfully installed and ran
	14 (API 34)	Not checked
	13 (API 33)	Not checked
	12 (API 31/32)	Not checked
	11 (API 30)	Not checked

The application declares a minimum Android SDK through the Flutter toolchain. Only the emulator image available on the test machine was exercised; the remaining versions are reported as untested.

Web Browser	Version	Compatibility
Chromium-based	Microsoft Edge (Chromium) 153.0.4234.32	Compatible
	Google Chrome	Not checked
	Mozilla Firefox	Not checked
	Opera GX	Not checked

Only the browsers installed on the test machine were exercised. Rows marked "Not checked" were not available in this environment and are reported as untested rather than assumed.

SYSTEM COMPLIANCE (WEB SECURITY HEADERS)

Assessment Summary Report — API

<https://u-sports.onrender.com/api/events> (Express + Helmet)

Header	Status	Value Observed
Content-Security-Policy	PRESENT	default-src 'self'; base-uri 'self'; font-src 'self' https: data:; form-action 'self'; frame-ancestors 'self'; img-src 'self' data:; object-src 'none'; script-src 'self'; script-src-attr 'none'; style-src 'self' https: 'unsafe-inline'; upgrade-insecure-requests
Strict-Transport-Security	PRESENT	max-age=31536000; includeSubDomains
X-Frame-Options	PRESENT	SAMEORIGIN
X-Content-Type-Options	PRESENT	nosniff
Referrer-Policy	PRESENT	no-referrer
Cross-Origin-Opener-Policy	PRESENT	same-origin
Cross-Origin-Resource-Policy	PRESENT	same-origin
Permissions-Policy	ABSENT	Not emitted by the default Helmet configuration

Assessment Summary Report — Web Client

<https://usports-one.vercel.app> (Vercel static hosting)

Header	Status	Value Observed
Strict-Transport-Security	PRESENT	max-age=63072000; includeSubDomains; preload
Content-Security-Policy	ABSENT	No policy is served with the web client
X-Frame-Options	ABSENT	The client can be framed by another origin
X-Content-Type-Options	ABSENT	No nosniff directive
Referrer-Policy	ABSENT	Falls back to the browser default
Permissions-Policy	ABSENT	No feature policy is declared

The API is hardened by Helmet and returns seven of the eight headers checked. The web client, which is served as static files by Vercel, returns only HSTS. Adding the five missing headers to the hosting configuration is recorded as recommendation R-1.

WEB SECURE CODING PRACTICES

NOTES ON DEFECTS FOUND DURING TESTING

Three defects were found while executing this cycle. One was fixed and re-tested within the cycle; the other two remain open and are carried into the recommendations.

D-1 — Coach "My Teams" rendered as a blank grey panel on Android

Severity	High
Status	Fixed and re-tested
Area	Mobile — Coach / My Teams
Found in	Test case 11-1
Source file	mobile/lib/screens/coach/coach_home_screen.dart
What happens	Signing in as a Coach and opening My Teams produced an empty grey rectangle below the app bar. No teams, no empty state and no error were shown, so the screen gave the coach nothing to act on and no way to tell whether the data or the app was at fault.
Cause	The screen body was a Column whose first child was the shared offline banner. That banner returns a Positioned widget, which is only valid as a direct child of a Stack; inside a Column it raises an incorrect-use-of-ParentDataWidget error during build. In a release build that error is drawn as the default error widget — a plain grey box — which is exactly what appeared. The banner was also redundant: it is already mounted application-wide in the MaterialApp builder, inside a Stack, so it already covered this screen.
Resolution	Removed the duplicate banner from the screen body and collapsed the now-unnecessary Column and Expanded wrappers, leaving the RefreshIndicator as the body. Verified with flutter analyze (no issues) and by re-running the signed-in Coach flow on the emulator, where the screen now renders its content.

D-2 — Athlete "My Events" is always empty

Severity	Medium
Status	Open
Area	Web — Athlete / My Events
Found in	Test case 8-3
Source file	apps/web/src/pages/athlete/Events.tsx (line 17)
What happens	The athlete My Events page reports "No events yet" for every athlete, including athletes whose team is entered in an ongoing event and whose dashboard correctly lists those same matches.
Cause	The page asks Supabase to embed event_participants through teams. event_participants.participant_id is a plain UUID with no foreign key to teams, because a participant may be either a team or an individual athlete. PostgreSQL therefore cannot resolve the relationship and rejects the request with HTTP 400 and error PGRST200 ("Could not find a relationship between 'teams' and 'event_participants'"). The page treats the failure as an empty result.
Resolution	Not yet applied. The embed has to be replaced by a two-step lookup: read the athlete's team ids, then read event_participants filtered on those ids, joining events separately. Out of scope for this test cycle.

D-3 — The deployed API rejects every browser request

Severity	Critical
Status	Open
Area	Deployment — API CORS configuration
Found in	Environment preparation for the web test run
Source file	apps/server/src/index.ts (lines 52-73) — configuration, not logic
What happens	Any request to https://u-sports.onrender.com carrying an Origin header is refused with HTTP 500. Requests without an Origin header (curl, the Android app) succeed. In practice this means the deployed web client at https://usports-one.vercel.app cannot reach its own API: signing in appears to work, but the first API-backed action — accepting the privacy notice — fails and the user cannot get past it. The Android application is unaffected because native HTTP clients send no Origin header.
Cause	The API allows an origin only when it matches the WEB_URL environment variable exactly, with a localhost exemption that is disabled when NODE_ENV is production. The WEB_URL set on the Render service does not match the deployed Vercel address, so the CORS callback returns an error for every browser origin and Express turns that into a 500.
Resolution	Not a code change. Set WEB_URL on the Render service to the deployed web address, or widen the allow-list to the set of deployed origins. Verified by testing against the local API, where the same code accepts http://localhost:5173 correctly.

RECOMMENDATIONS

R-1	Add Content-Security-Policy, X-Frame-Options, X-Content-Type-Options, Referrer-Policy and Permissions-Policy to the web client's hosting configuration. The API already sets these; the static client does not.
R-2	Set WEB_URL on the deployed API to the deployed web address so browser requests are accepted (Defect D-3).
R-3	Replace the unsupported PostgREST embed on the athlete My Events page with a two-step lookup (Defect D-2).
R-4	Reserve the largest element on the public hub so its layout shift settles; the hub is the only module whose Cumulative Layout Shift exceeds the 0.1 threshold.
R-5	Extend the compatibility matrix by installing Chrome and Firefox and at least one older Android emulator image, so the rows currently marked "Not checked" can be measured.
